## History

Democratic Women's Information Network (DWIN) was chartered in 2003 by the Democratic Women's Club of Florida (DWCF) to educate and inform Democratic women on the First Coast about the political process and help elect more Democratic women.

DWIN hosts Empower and Engage "E2" sessions and quarterly General Membership meetings.

DWIN members have the opportunity to attend state DWCF conventions featuring an exciting range of workshops, think tanks, seminars, and speakers who are outstanding in their field.

DWIN members recruit and promote women's candidacy for positions in top policy-making jobs, local and state commissions, boards, and committees.

## Why Join?

DWIN supports statewide projects through Regional Chairs who assist local clubs with guidance, problem-solving, and direct links to DWCF.

DWIN officers and members have consistently participated in every aspect of our organization's local, state, and national programs and projects, legislation and advocacy, to expand and strengthen our grassroots growth from research and development to implementation.

**History will ask what did  
you do when Democracy  
was at stake.**

**Join the fight today.  
When we vote, we win!!!!**
